## FARMER-LABOR PARTY NAME OF NEW THIRD PARTY

AND PERLEY CHRISTENSEN, SALT  
LAKE CITY, IS NEW PARTY'S  
PRESIDENTIAL NOMINEE

**LaFOLLETTE REFUSES TO HEAD  
MOVEMENT—ISERS BOLT—WILL  
MAKE NOMINATION  
DON CHAMBERLAIN**

(United Press Staff Correspondent.)

Chicago, July 15—The Farmer-Labor party shortly before dawn today entered the political field with a national ticket.

Perley T. Christensen, of Salt Lake City, who has been permanent chairman of the forty-eight convention, was nominated for president for the new party. Max Hayes, of Cleveland, the chairman of the executive committee of the labor party, was chosen the vice presidential candidate.

Nominations came after a group of 48ers disagreed on the platform of the convention, withdrawing with the announcement that they would continue their own convention today.

The joint convention of the "amalgamated" liberal group which had adopted the name of "farmer labor party" during an all night session, broke up shortly after 4 a. m. today.

Christensen's nomination at 2:26 a. m. was the sensation of the convention. His supporters upset the plan of labor leaders who had endorsed Dudley Field Malone, New York City. Christensen was chosen on the second ballot.

Labor leaders, chagrined by the defeat after having so completely dominated the convention, decided to accept their defeat and agreed to the nomination of Hayes, as his name had been withdrawn the second time.

Though Hayes has been nominated, it was understood he will not accept.

John H. Walker, chairman of the joint convention, stated that the nomination was made despite Hayes' request that he not be considered. If Hayes refuses the nomination, Walker told Christensen that the executive committee would name a labor man to succeed him.

Christensen's nomination came after he appeared before the convention and stated he was not a candidate, and did not want to be considered.

Ten candidates were placed in nomination for the presidency.

They were, in addition to Christensen, Jane Addams of Chicago; Senator Robert M. LaFollette of Wisconsin; John Fitzpatrick of Chicago; Henry Ford, of Detroit; Dudley Field Malone of New York; Eugene V. Debs; Governor Lynn Frazier of North Dakota; Assistant Secretary of Labor Post; Herbert Bigelow, Cincinnati minister.

On the first ballot Malone lead with a total of 166; Christensen was second with 121; Debs 68, Ford 12, Frazier 2; Bigelow 7, Post 1.

On a motion aimed to split up the ballots the convention eliminated all but Malone and Christensen.

When the result of the ballot was announced Christensen addressed the convention from the platform.

"I very much wish you had chosen Malone, but I am not going to hesitate in accepting a call from a bunch like you." He was in entire accord, he said, with the platform adopted.

LaFollette's candidacy was withdrawn only when Robert LaFollette, Jr. took the platform and stated it was the expressed wish of his father not to be nominated.

**Christensen Will Not Stand in  
LaFollette's Way**

Chicago, July 15—Perley T. Christensen, member of the committee of forty-eight and presidential nominee of the farmer-labor party threw a holdover meeting of the forty-eighters into confusion today when he suddenly strode into the hall.

About two hundred of the original twelve hundred delegates were present and half of these raised a counter shout of "LaFollette."

Christensen asked permission to interrupt Gilbert E. Roe, personal representative of LaFollette, who was addressing the forty-eighters, for a statement as he had to catch a train.

This was granted and Christensen said in part:

"You and I, and all the rest wanted LaFollette, and if there is still any way to get him I will not stand in the way."

"I must remain true to the loyal group of men and women who nomin-

MISS ELEANOR F. BLISS

Miss Eleanor F. Bliss, daughter of Gen. Tasker H. Bliss, U. S. A., whose engagement is announced to Adolphus Knopf of the geological survey. The marriage will probably take place in October. Mr. Knopf is at present giving a course of lectures at Yale.

ated me, but I must tell you I hope we can all get together after all."

With that Christensen strode from the hall. A few delegates shook his hand while others renewed their shouts of "LaFollette." He refused to explain further his statement that he would "not stand in the way if they want LaFollette."

### Third Newspaper Candidate

Chicago, July 15—Perley Christensen, presidential candidate on the new farmer-labor party ticket, was just "plump tickled" when the first news of his nomination was carried to him.

Christensen is a bachelor, forty-nine years old, six feet four inches in height and weighs 287 pounds, and smokes.

He is a lawyer and practices in Salt Lake City, Utah. Christensen was born at Weston, Idaho and lived on a farm.

Christensen's nomination makes the third newspaper man running for president. He once owned the Salt Lake newspaper. He still writes for newspapers.

### 48ers in Quandary

Chicago, July 14—A curious situation confronted members of the committee of forty-eight when they met at Hotel Morrison today to determine the future of the organization.

They had seen the "farmer labor party" with which they were officially amalgamated, but from which many of them bolted yesterday afternoon, adopt platform which to them is more radical even than the official program of the socialistic party. They had seen new party perform the amazing feat of choosing as their standard bearer the man who had been permanent chairman of their own convention before the "amalgamation," Perley T. Christensen.

Just what proportion of the forty-eight element the presidential candidate may be able to retain in the new organization was problematical.

## COX WILL APPEAL TO PROGRESSIVES

**FORMER BILL MOOSERS NOT  
DEMOCRATS WILL TRY TO  
LINE THEM UP**

H. W. WALKER

(United Press Staff Correspondent.)

Columbus, Ohio, July 15—James M. Cox, democratic nominee, in his campaign, will make an appeal to the progressive element of both parties.

Cox and Franklin D. Roosevelt probably will have an early conference with Bainbridge Colby, now secretary of state, and Victor Mordock, of the federal trade commission, former Bull Moose, to discuss plans to bring the remnant of the old progressive party into the democratic fold. Colby, Mordock and other Bull Mooseers now lined up with the democrats will be asked to take a prominent part in the campaign, it was learned.

Another feature of the Cox progressive campaign will be an attempt to paint Senator Harding as a reactionary, as indicated in the democratic nominee's statement.

### Through Difficulty to Triumph.

Many men owe the grandeur of their lives to their tremendous difficulties.—Spurgeon.

## RESOLUTE MEETS WITH ACCIDENT; WITHDRAWS RACE

**WAS HALF MILE AHEAD OF THE  
SHAMROCK AND STEADILY  
GAINING WHEN ACCIDENT  
OCCURS**

**RACE HALF FINISHED—SHAM-  
ROCK WILL WIN IF SHE FIN-  
ISHES IN TIME**

(By United Press)

Henry Farrell, aboard the U. S. destroyer Goldsborough, by wireless to the United Press, July 15—With the first of the series of races with the Shamrock IV well in hand this afternoon the Resolute defender of the cup was forced to withdraw from the race when her throat hilyard parted.

Captain Adams, skipper of the American yacht, made game efforts to keep in the race after the accident, but was unable to make repairs at sea.

The jaws of the gaff of the Resolute came down when it was half a mile ahead of Sir Thomas Lipton's yacht near the fifteen mile mark.

The Resolute going on with two men aloft trying to repair the broken sail and rounded the half way mark still in the lead.

The Shamrock overtook the mark and wore around with a wide berth. She passed the almost sailless Resolute at 3 p. m. overcoming the big lead gained by the Resolute at the start of the race.

If the Shamrock finishes the race before the six hour time limit applied in the thirty miles to be covered she will be awarded a victory.

After rounding the water mark the Shamrock passed the Resolute. Captain Adams decided that he would not continue with the crippled yacht and withdrew. The Shamrock continued on the course with the intention of finishing.

The Resolute had the best of the race from the start until the accident occurred. She cut away with a lead of twenty yards which soon increased to half a mile. In changing of sails during the race the Resolute was superior.

The race was marred with several squalls and a mist.

Sir Thomas Lipton, owner of the challenger has frequently declared if any accident occurred he would not accept a victory.

### Cosmopolitan Switzerland.

Before the Romans conquered the territory now known as Switzerland, it was inhabited by a conglomeration of hostile tribes, for the most part of Celtic origin. But the district of the eastern Alps in which the present canton of the Grisons is situated was in possession of the Raeti, of mixed Latin and Etruscan stock. At the time of the Teutonic invasion of the Roman empire, Raetia received a certain number of German-speaking immigrants, and in the tenth century was used for a while as a basis of operations by the Saracen brigands, who made Europe unsafe.

### Improved Umbrella Construction.

Mechanically simple as an umbrella is, it must generally be taken apart to repair a broken rib or stretcher, and the task is beyond most owners says Popular Mechanics Magazine. A Brooklyn inventor has improved on the usual construction by inserting the end of each rib and stretcher between a pair of metal ears on the notch and runner members, using a short wire with bent ends for the pivot.

MRS. JOSEPHUS DANIELS

Mrs. Daniels has been an earnest worker in behalf of the Sheppard-Towner bill for the protection of maternity and infancy.

ADOLFO DE LA HUERTA

Adolfo de la Huerta, who was elected provisional president of the republic of Mexico.

## SENATOR HARDING ISSUES A STATE- MENT ON SUFFRAGE

**TO PUT HIMSELF AND PARTY ON  
RECORD AS FAVORING WO-  
MAN'S SUFFRAGE**

RAYMOND CLAPPER

(United Press Staff Correspondent)

Marion, O., July 15—Senator Warren G. Harding opened a fight to capture the woman vote in face of a recent refusal of the Vermont republican governor to call a special session of the legislature to act on the women's suffrage amendment.

Plans of militant suffragettes to make anti-Harding capital out of Governor Clement's action have been thwarted by the republican candidate and defendants of the party suffrage record in a public statement his friends believe.

Harding's action, his advisors hope, would put the party and the nominee so clearly on record as favoring suffrage that suffragettes would find little reason for picketing Harding's front porch on July 22 as planned.

Republican leaders apparently have given up hope that a republican state will be the thirty-sixth to ratify.

## REDS REFUSE TO GRANT ARMISTICE

**SAY THEY WILL NOT HALT BOL-  
SHEVIST ARMIES UNTIL PO-  
LAND HAS BOLSHEVIST  
GOVERNMENT**

(By United Press)

Berlin, July 14—The Russian soviet government will reject the British armistice proposed and will not order armies to halt their advance until a bolshevist Poland has been established, according to dispatches from Moscow today.

### George Eliot the Lay Preacher.

A novelist who bases his art on clean-cut ethical formulas is bound to wane in popularity. For special reasons, he may make a strong appeal to his own generation and yet be neglected by the generation succeeding.

George Eliot was the eloquent lay preacher of her age. Literary sermons like hers are now out of date. Readers do not care to be told what will happen if they do not do this or if they do that. Similarly Thomas Hardy is certain to suffer in fame. The kind of philosophic determination embodied in his novels is disappearing. If Hardy and George Eliot long survive, it will be in spite of their moral formulas; it will be because readers will be willing to overlook moral formulas on account of the permanently interesting phases of life presented by a master hand in their novels. Herein lies the final test of literary immortality. There is no question about novels like "Tom Jones" and "Vanity Fair," which are not framed on any precise technical theory. They are life itself and its diffused morality.—Wilbur Cross, in the Yale Review.

## ELECTRIC WORKERS STRIKE; TIE UP CITY STREET CAR SYSTEM

**ELEVATED TRAINS ARE TAXED  
TO THE UTMOST AND SUB-  
URBAN TRAINS ARE  
CROWDED**

(United Press)

Chicago, July 14—Street car lines were completely tied up by a strike of 350 electrical workers today.

The tieup caused jams on other lines of transportation. Elevated lines were thickly crowded early and trains were packed. Suburban railroads were heavily overtaxed by a flow from surface lines. Extra trains were placed in service early today. Efforts to resume service were made by company officials shortly after 8 o'clock. Non union men were found for a few cars. The first car from the tieup appeared on the loop. There was a few passengers aloft. No service had been resumed in outlying sections at this time.

## FEDERATION ISSUES A STATEMENT COMPARING CANDIDATES RECORD

(By United Press)

Washington, July 15—A comparison of the labor record of Governor Cox and Senator Warren G. Harding, democratic and republican presidential candidates will be issued by the American Federation of Labor soon, it was expected today.

The data on the candidates followed the statement on both platforms. The statement on the democratic platform issued yesterday says that "the democratic platform marks a measure of progress not found in the platform of the republican party."

### Woman Arrested

## NON PARTISAN LEAGUE WILL NOT LOSE ITS IDENTITY—TOWNLEY

(By United Press)

Minneapolis, July 15—The national nonpartisan league is not allied to either the 48ers or the "laborites" who attempted to get together in Chicago on a national third party ticket.

Any members of the league who were in Chicago had no authority to represent the league, A. C. Townley, president of the league said today. He said the only way the league could endorse a third party ticket would be through its national executive committee or a national convention.

"The national nonpartisan league will never lose its identity by amalgamating with any other organization," Townley said. "It will always be a nonpartisan league and nothing else. We will never affiliate with a third party."

## MOSCOW MANIFESTO PRESENTED AS EVIDENCE IN ESPIONAGE TRIALS

(By United Press)

Chicago, July 15—The "Moscow Manifesto" demanding rule of the world by sovietism was presented as evidence against Wm. Bros. Lloyd and other alleged members of the communist labor party charged with violating the state espionage law.

The document alleged to have been endorsed and expounded by defendants was met with objection. The state contended it was the most damaging evidence they had. Detective S. Egan testified he secured the document on a raid on the communist headquarters.

## MEXICAN REBELS AT- TACK NUEVE LAREDO

(United Press)

San Antonio, Texas, July 15—Nueve Laredo, important Mexican state capital across the Rio Grande, was attacked by rebel forces under Ricardo Gonzalez early today according to advices received here.

## AIRPLANES OFF FOR NOME ALASKA

(By United Press)

Mitchell Field, Long Island, July 15—Four airplanes left here at 2:33 today on a cross continental flight to Nome, Alaska.

The start had been delayed since early this morning by rain.

HON. ELEANOR SMITH

Hon. Eleanor Smith, daughter of Lord Birkenhead, British lord chancellor, who is extremely popular in British court circles.

## WHEAT TRADING IS RESUMED ON BOARD OF TRADE

**SUBSIDING OF THE RUST SCARE,  
AND GOOD WEATHER TENDED  
TO BEAR DOWN PRICES**

(By United Press)

Minneapolis, July 15—Aside from a stir at the opening today when traders flooded the newly opened wheat pit in the roll of spectators, the board of trade was notable today only for continued decline in corn and oats futures. The subsiding of the rust scare in the northwest, good crop weather and good receipts tended to bar down on prices. Corn sagged heavily, and provisions were low with the grains.

There was little trading in the wheat pit but the few deals involved many bushels.

Prices however had broken at the opening at about ten cents below the prevailing cash prices and not much fluctuation.

December wheat opened at \$2.73 and went as high as \$2.77 1/2 and closed there. March wheat opened at \$2.78 and went down to \$2.72 1/2 and marked the close.

### Modern Morals.

Lady Duff Gordon said at a tea at the Ritz:

"There are young women who would rather be ultra-fashionable than anything else. In their eyes nothing matters but that."

"Two young women were lunching when a third young woman passed in the company of an elderly married pair."

"There goes Maud," murmured the first young woman. "They say (but she and old Mr. Goldie spent the weekend at Atlantic City together.)"

"Oh," said the second young woman in shocked tones. "Oh, what a lie!"

"You know you couldn't drag her with wild horses to such a vulgar, common resort as Atlantic City."

ELMER D. BALL

Elmer D. Ball of the Iowa agricultural college, who has just taken up his new duties as assistant secretary of agriculture, is a practical farmer. He owns and operates a farm of his own in Utah.

## GERMANY ACCEPTS ALLIES DEMANDS FOR COAL DELIVERY

**OBVIATING THE NECESSITY FOR  
THE OCCUPATION OF GER-  
MAN RUHR DISTRICT**

**GERMANS REACHED DECISION AF-  
TER ALLIED NOTICE OCCUPA-  
TION WOULD BEGIN**

FRIDAY

(By United Press)

Spa, July 15—Germany has accepted the allied demand for delivery of two million tons of coal monthly, thereby obviating the necessity for allied occupation of the Ruhr, plans for which had been completed. Dr. Bonn, one of the German delegates notified Premier Lloyd George of the German delegations' decision at 11 p. m. last night.

The Germans will submit a protest against the coal delivery and will offer a counter proposal seeking modification of the demands. Acceptance of the coal ultimatum came after notification from the allies that Germany would be invaded by allied forces Friday morning if the demands were rejected.

### Allies Will Consider Conditions

Spa, July 15—The conditions to which the German delegation here agreed to meet the allied demands for two million tons of coal monthly will be considered at a conference to be held at 3:30 p. m. today, it was announced.

The session scheduled for 11 o'clock this morning was not held. The allies will hold up their ultimatum notifying Germany that allied troops will occupy the Ruhr region as a result of their rejection of the coal demands.

## WOMAN ARRESTED AS MEMBER OF AUTO THIEVING GANG

(By United Press)

Chicago, July 15—Police today in the arrest of Mrs. Chas. Siegle, said the woman was involved in one of the largest automobile thieving gangs uncovered in the middle west.

With Mrs. Siegle was Wm. Frazer and Arthur Wood. The three are members of a gang with headquarters in St. Paul. Cars stolen in Chicago were remodeled and renumbered at a garage controlled by the gang and sold all over the country, police said.

## TAFT'S DAUGHTER WEDS PROFESSOR

(United Press)

Murray Bay, Quebec, July 15—Miss Helen Taft, daughter of ex-President William H. Taft, was married here today to Frederick Johnson Manning, professor of American history at Yale University, New Haven, Ct.

The newly wed couple will leave shortly for a tour of Canada and return via northern Minnesota.

## SINN FEINERS RAID DUBLIN POST OFFICE

(By United Press)

Dublin, July 15—Fifty men raided the main post office early today seizing all government mail.

Several police constables were wounded in fighting with Sinn Feiners at Poynes, county Limrick. The Sinn Feiners ambushed the constables on the outskirts of the town.

## PASTE FACTORY BURNS, FIREMEN OVERCOME

(By United Press)

St. Paul, July 15—Several firemen were overcome by smoke early today when fire destroyed a paste factory in the wholesale district. Explosion damaged the building and helped the fire along. The damage was estimated at \$50,000.

### Easy to Get Rid of Enemy.

Long before bullets were ever thought of as an ideal messenger of death, the idea of working evil on an enemy was extensively practiced by the Ojibwa Indian. He would make a small wooden image of the one whose destruction he sought, and then pierce its head or heart with a needle. He was positive in his belief that the object of his hate would be similarly affected. However, to make certain, he would burn the puppet to the accompaniment of magical words.

## THE WEATHER

Forecast for next 24 hours:  
 Minnesota—Fair tonight and Friday, warmer in the north-west portion tonight.  
 Cooperative observer's record  
 6 p. m.:  
 July 14—Maximum 70, minimum 48. Reading in evening 60. Northwest wind. Partly cloudy.  
 July 15—Minimum during the night, 48.

The Brainerd Co-operative Mercantile Co. will sell a car of "Indeke's" flour at COST from the car on Saturday and Monday, July 17th and 18th. This is old wheat flour. Come and get your fall's supply. Phone our neighbor. 3603

Mathias Rodman, resident for forty years in Brainerd, passed away at the age of 75 leaving a wife and three sons John and Ole of Brainerd and Matt, of Colville, Wash., and one daughter, Mrs. Martha Wickstrom. The remains are now at the B. C. McNamara chapel and the date of the funeral will be given out when relatives in Washington have been communicated with.

Ask your dealer for Velvet Ice cream, the best made. Manufactured by the Brainerd Creamery Co. Tel. 50. 2991

Dispatch want ads measured well on Wednesday. The eight-page issue of the Dispatch, made possible by the large two-page ad of the H. A. Michael Co., carried close to a column and a half of wants. There were 15 help-wanted, 5 for rent, 20 or more and 2 miscellaneous wants. Telephone your wants to the Dispatch, southwest 74, or mail the ad or have it sent to the office. Ads are cash, sent a word each time.

The Vernon L. Hitch agency of 120 South Sixth street has sold a half section of land in section 6, Platte Lake township to William Schwab of Villiston, N. D., a brother of the late Chris Schwab. The land was formerly embraced in the Charles Walker place. The Hitch agency is ringing in land seekers from North and South Dakota, southern Minnesota and Iowa. Two field men, born and raised in the county, and experienced in successful agriculture, are maintained by the agency.

## The Salvation Army

Elsie and Mrs. O. W. Knapp, commanding officers of Brainerd Salvation Army, are being transferred to Green Bay, Wis. after one year's work in Brainerd.

An ice cream and cake social is being given this evening in order to raise needed funds for moving expenses. Take in this social and hereby help give the work a little lift for the needs are real ones.

## Too Fat?

EASY, HOME SELF TREATMENT

Overstoutness weakens, the liver becomes sluggish, fat accumulates, heart action becomes weak, energy fails, work is an effort and the beauty of the figure is destroyed.

Fat excess is unhealthy, it shortens lives of many, it breeds disease, it is a burden of unhealthy fat. Become slender!

Don't allow your health to be ruined through a burden of unhealthy fat. Spend some time daily in the open air: breathe deeply. Get from any druggist a box of Korein and follow Korein system simple directions that come with it.

Weigh yourself and take your measurements every week. Continue reducing until you are down to normal. Korein system is absolutely harmless, is pleasant, and even a few days' treatment is likely to show a noticeable reduction. Legions of testimonials.

Korein system (pronounced *korein*) has succeeded when other remedies, etc., have failed. It is the delight of those who wish to improve their figure and to acquire a young, active appearance. \$100.00 guarantee that you reduce 10 to 60 pounds (whatever you need to) or cost you nothing! Buy Korein at any busy pharmacy, follow directions. Show stout friends this advertisement.

## MERELY OF VALUE AS GUIDE

The Past, as Revealed by History, Worth While Only as It Points the Future.

The division of all history into ancient, medieval and modern, like the division of all Gaul, is a part of the stock of knowledge of every one who has enjoyed the advantages of education.

The statement would seem to admit of no question. Perhaps it is as reasonable a division of history as can be had without the expenditure of too much time and thought. At least it has the advantage of simplicity. Is it, however, the whole truth?

It is true if you only mean by it that certain periods of history began and ended at a certain date, but it is not true if you mean that the state of mind that belonged to ancient history ceased to exist at the fall of the Roman empire or that the character of medievalism stopped with the discovery of America.

The world is modern in time and in outward appearances, but antiquity and the Middle Ages are not yet done with us, nor will they be for long. They have left their indelible marks upon our thought, our social customs, and political institutions.

What is really modern in the world is like the tongue of a glacier penetrating down the mountain slope. The mass from which it came is far behind, moving so slowly that it does not seem to move. Only this small peninsula projects out into the unknown. In us, all that has been is represented. It holds us back and yet it points us forward, for history is vainless unless it is a guide for the future.—Milwaukee Journal.

## Waste of Sulphur.

The sulphur-dioxide fumes escaping from the dumps of waste round nickel mines in the Sudbury region of Ontario are said to amount to 1,000 tons a day. No satisfactory method of saving this sulphur has yet been devised.

Meaning of "Flivver."  
 "Flivver" has long been in use as a slang word, particularly by theatrical people, who speak of a poor play as a "flivver." In a general way the word means anything that goes wrong or fails to come up to expectations. It is equivalent to the word "fozzle." Its real origin is one of the mysteries of slang.

All Furniture of Metal.  
 Wooden furniture will disappear entirely at no distant date, owing to the perfected processes of making steel furniture and the scarcity of suitable timber.

Little  
Money Saver  
Says:

We carry all sizes of window glass in stock. For thirty years this store has been headquarters for glass. We will set the glass at a very nominal charge, if you ask us to. Putty and points go free with all glass orders. Our service will please you.

Expert Chiropractors  
Takes the Picture While  
You Wait

An Absolute Reliable Factor. Reveals the Exact Facts of the Case. The Machine that sees Clear Through You.

The X-ray Equipment Removes Every Shadow of a Doubt Shows clearly just what nerves are pinched. The extent of the impingement and you thus know why the different organs of your body are affected and why you have disease.

## Do Not Longer Wait

There is nothing to be gained by delay. Indecision lengthens and increases your pain and gives your disease a firmer hold upon the part affected.

## Instant Decision

The men and women of the world who have done things have been of instant decision, capable of deciding at once.

## We Have the Equipment

We know how to do the work. We can find the cause and then remove it. Our system of Chiropractic is expert and thousands attest to its merits, so why longer wait?

## Our Consultations Are Free.

Yours for the asking. The acceptance may mean years of misery rolled away. Remember the name and place.

## CAMP MEETING OPENS JULY 22

Under the Auspices of the Minnesota  
Pentecostal Association. Ex-  
perienced Leaders

LOCATED NEAR THE POSTOFFICE

Under Tented Canvas Religious Mes-  
sage to be Conveyed for Period  
Until August 1

A camp meeting will be opened in  
Brainerd on July 22, and will con-  
tinue over Sunday August 1 under  
the auspices of the Minnesota Pen-  
tecostal Association which has con-  
ducted camp meetings at Red Rock  
for the past 25 years.

The preachers and workers at this  
meeting will be Rev. G. G. Valle-  
ntyne, Rev. W. H. Winters, F. E. Rey-  
nolds of Minneapolis, Rev. T. W.  
Stout of Fergus Falls, Mr. and Mrs.  
E. O. Rice of St. Paul. The meetings  
will be held in a large tent on the  
lots just south of the postoffice.

Rev. G. G. Vallentyne has been  
pastor of the Park Avenue Metho-  
dist church of Minneapolis for the  
past twenty years and is one of the  
strongest expository preachers in the  
state. He has also been president of  
the Association for about twenty  
years.

Rev. T. W. Stout is now pastor of  
the Fergus Falls Methodist church  
but was for twenty-five years pastor  
in Minneapolis, and was then su-  
perintendent of the Minneapolis dis-  
trict for six years. He is a strong  
preacher.

Rev. W. H. Winters, is pastor of  
the Jefferson street church, Minne-  
apolis. He is the secretary of the  
Red Rock camp meeting and comes  
here with a large experience in this  
work.

F. E. Reynolds is a business man  
of Minneapolis who comes with a  
message to business men. He is al-  
so a great worker in revival meet-  
ings.

E. O. Rice is also a business man,  
a banker and broker and is now en-  
gaged in religious work. He has a  
message no one should miss.

All persons interested in their own  
or the community's religious life  
should plan to attend these meetings.  
Word has been received that delega-  
tions are planning to come from  
many of the surrounding towns. A  
large attendance is looked for.

## BAND CONCERT TO BE GIVEN TONIGHT

The Washington school grounds  
will be the scene of the regular  
weekly band concert tonight. A  
change from Friday was made neces-  
sary as the Brainerd Municipal band  
has accepted the engagement to play  
at the Northern Minnesota Editorial  
convention at Crosby, in session July  
16, 17 and 18.

William F. Palmer, conductor of  
Brainerd's band, will play a cornet  
solo tonight. The concert selections  
given will run the gamut from popu-  
lar to classical.

The program for concert at Wash-  
ington school tonight is:  
March—"The Ambassador"—Bagley  
Overture—"Romantic"—Keifer  
Popular Song Hits  
"Venetian Moon"—Goldberg  
"Hiawatha's Melody of Love"—Meyer

Waltz—"Egyptian Nights"—Selected  
Cornet Solo  
Wm. F. Palmer

Selection—"Robin Hood"—deKoven  
Reverie—"Rose Leaves"—Ashleigh  
Popular Song Hits

"Isle of Golden Dreams"—Blauhaus  
"Moonlight on the Swanee  
Shore"—Whiting  
March—"Rapid Fire"—Moore  
"Star Spangled Banner"

### First Baptist Church

The prayer hour at the First Ba-  
ptist church at 8 o'clock this evening  
will be in the nature of convention  
impressions received at Buffalo, N.  
Y. Let all members and friends be  
present. It should be a profitable  
service. The pastor will lead.

### I'll Try Class

The I'll Try class of the Evange-  
lical church of Northeast Brainerd  
will meet Friday evening at the home  
of Miss Estella Rudolph, 811 4th  
Ave., N. E.

### Maccabee Meeting

The Women's Benefit Association  
of the Maccabees will hold their regu-  
lar meeting on Friday evening,  
July 16th, at Odd Fellows hall. Im-  
mediately following the business ses-  
sion a "Characteristic" program will  
be given after which refreshments  
will be served by the committee in  
charge.

IT PAYS TO ADVERTISE—TRY IT

## Fabric Hats Defy the Sun

AS THE gorgeous peacock feathers  
and the royal purple iris have  
dainty sisters that are pure white, so  
the colorful hats of early summer are  
followed by replicas in white or in the  
palest tints, when July and August  
bring their burning skies. These with  
other cool looking millinery, do not re-  
place their predecessors, but are added  
to midsummer headwear to be used  
when anything that is cool, and looks  
cool, is a refreshing sight. There is  
nothing like white, and especially pure,  
sheer white fabrics, for accomplishing  
this purpose. Next to white, combina-  
tions of white and navy blue, white  
and black, white and beige, or tan,  
are depended upon for these crisp hats  
that defy the hottest day that comes.

Most of these simple fabric hats are  
made of organdie, flowered voile,  
honeycomb batiste, taffeta and geor-  
gette in combination with very plai-  
able and light straw braids. They are  
not beyond the ability of the average  
needle woman who likes to undertake  
hat making at home, as a glance at  
the group of four hats pictured above  
will show. Three of them are made  
on wire frames and one has a light

straw braid foundation. The wire  
frames are first covered with organdie  
or net or other thin, sheer fabric, but  
to fit the brim and crown, and it may  
not be necessary to cover the upper  
brim with this foundation material.  
Hemstitching is used where the top  
and side crown pieces are joined and  
edges have a picot finish or very nar-  
row silk or straw braids may be  
stitched to them. Sashes of narrow  
ribbon or of organdie or of the same  
fabric as the hat, provide the trim-  
ming. One of the hats pictured is  
made of white taffeta and has a brim  
facing of navy blue braid. There is  
a little outline embroidery on the  
crown of this hat, done with navy blue  
embroidery silk. Two hats of honey-  
comb batiste, have soft edges extend-  
ing beyond the edges of the frames,  
one with a collar and bow of satin rib-  
bon and one with a little silk em-  
brodery on a scarf end used for its  
decoration. They are all white.

*Julia Bottomly*

## Three-Year-Olds in Play Togs

HERE are two outfits for busy lit-  
tle persons who are three, going  
on four—or more years—up to six,  
that will make an instant appeal to  
mothers. They are every-day togs—  
a little dress with bloomers and attrac-  
tive rompers, both made with sun bon-  
nets to match and fashioned of more  
or less sturdy materials, according to  
the kind of wear demanded of them.  
The popular ginghams in very small  
checks, plain chambrays, or any of  
the medium or lighter weight cottons  
used for children's play clothes—not  
omitting unbleached domestic—might  
be used for making them. As shown  
above, they are intended for the less  
strenuous frolics of little ones, for the  
clean sands of the beach, for the lawn  
or veranda, but the models are good in  
heavier and darker cottons.

The little frock as pictured is made  
of white and blue printed lawn. The  
pretty, old-fashioned dress has a  
straight yoke with body and skirt in  
one, gathered to it, the joining decorated  
with feather stitching. It has a  
round neck and short sleeves all fin-  
ished with a plaited frill of white  
lawn. The dress has four rows of shir-  
ings at the back and front with  
sashes at each side. A sash of lawn  
slips under these slashes and this ar-  
rangement takes care of the waist line.  
An adorably quaint sun bonnet is  
edged with a crochet lace and has ties  
of the material. A little ribbon bow  
is added when thin goods are used, but

will be left off heavier fabrics.  
Bloomers in a color or white should be  
provided for these playtime dresses.  
When checked ginghams and other sub-  
stantial materials are chosen the  
bloomers match the frock.

Plain chambray gives a good account  
of itself in the rompers pictured. The  
collar and cuffs have narrow frills of  
dotted Swiss and this material is used  
for the irresponsible but pretty bon-  
net and its ties. A band and bow of  
ribbon make it a very dainty affair,  
less practical than its rival.

*Julia Bottomly*

### Again Leghorn Hats.

Leghorn hats are again in rather  
high favor for summer; but the  
tendency is to have a leghorn and silk  
combination rather than a hat entirely  
of the leghorn. The crown may be slit  
to let in bits of silk, or an entire silk  
crown may be used to top a drooping  
leghorn brim.

### New Style in Skirts.

The camisole skirt is the latest addi-  
tion to a smart woman's wardrobe. It  
is a plaited model hung from a loose  
waistline of a camisole. Over it is  
worn a loose-waisted blouse which  
matches the skirt.

Wastes Time on Trifles.  
I have a friend, a most estimable  
man, who is so conscientious about do-  
ing little things to a complete finish  
that he never allows himself to neg-  
lect details of the most trifling na-  
ture. The result is that, although he  
is a tremendous worker, his energies  
are so exhausted on trifles that he  
has very little strength or time for im-  
portant things that need his attention.  
—Orison Sweet Marden in Chicago  
Daily News.

Art Ideals.  
Movie Actor—Gov. Quenele, the  
script is rotten! I've got to wear the  
same clothes in two sets.—From Life.

Appropriate.

## UNCLE SAM UNOFFICIALLY

A press dispatch the other day mentioned the announcement just made by Secretary Houston that the United States will be represented unofficially at the Brussels financial congress under the League of Nations on July 23. Uncle Sam cannot quite make an official appearance, because this country is not yet in official membership with the league.

This is to be a meeting to raise money, to finance various plans to aid Europe, to support the war debts, and to brace up Europe's credit. It is no secret that Europe has been planning ever since the armistice was signed to draw strongly upon the credit of the United States—and certainly this country is willing to help so far as it reasonably can. But the idea has prevailed in Europe that the United States should carry a larger share of the general war debt, to equalize the world's war burden, and should very largely finance the industrial restoration of Europe. President Wilson's attitude while he was in Europe and since then has encouraged that view. Even the democratic platform adopted in San Francisco hints on it in saying that reservations in the league treaty would be acceptable if they more explicitly fix the obligations of this country to the nations in the league—not a word about the rights of the United States, but only the obligations. Europe desires to get us tied up officially to the European view of what our obligations are, and the democratic platform contends. The people of this country prefer their own self-determination as to how much they can afford to do, and how they shall do it. The people have rights as well as obligations, but the democratic platform recognizes only the obligations, because that is the attitude of President Wilson. The proceedings of the Brussels financial congress will be watched with much interest—Superior Telegram.

## STATE FAIR EXHIBIT

Crow Wing county should exhibit at the state fair this year.

It should do so in order to herald to the world the wonderful dairying and farming and stock raising interests of this county, daily developing to larger proportions.

Morrison county is busy gathering its exhibit of grasses, etc., under the direction of the county agent, and this county can do likewise.

Backed by farmers, business men, and laboring men generally Crow Wing county can put on an exhibit which will put the county on the map at the state fair.

True, it costs something to gather the exhibit, to arrange it properly, to have men on the ground at the fair to answer questions about Crow Wing county, but it's worth it. It is the most valuable publicity the county can gain by showing the goods it raises.

Why, some people imagine this county has only iron mines and some of the 10,000 lakes and no farming or dairying or sheep or cattle raising. Let's get busy with the exhibit.

The whole exhibit won't cost the county any more than the town of Crosby failed to entertain the whole Northern Minnesota Editorial convention.

## DON'T GIVE A HALO

Morning dispatch says the hangmen of Germany have gone out of strike. In other words, they don't care a hang about work until their wages are raised. At the town of Meiningen, somebody was to be executed, but the hanging could not be carried out because the hangmen of Halle and Munich declined to work. No objection has been heard from the man who was to be executed.

## SOME USE AT LAST

Men have with regret referred to tax receipts, rent receipts and income tax receipts as simply record-

ing money spent and then of no use to any one except as a reference.

Well, the income tax receipt came to its own just lately and that was when Herbert J. Duckworth, a newspaper correspondent, smuggled himself into Bolshevik Russia.

At Iaborsk he was stopped at military headquarters. However, the two sentries let him pass on the strength of a run-out permit to reside in Reval and a New York income tax receipt.

## ALL TORN UP

Brainerd resembles Chicago in its palmiest days. Where streets have not been torn up for cement paving they are being dug up for water mains. The motor driver from the outside needs a map and a guide to find the thoroughfares of easiest riding qualities. By next year Brainerd streets will be on a more solid foundation and the visitor can toast the city in brand new municipal spring water.

## NORTHWEST NEWS

## Trading in Wheat Resumed

Minneapolis, Minn., July 15—Resumption of trading in wheat futures will be hampered because of transportation conditions, grain men here agreed today.

The new wheat crop will be slow in reaching the market and if congestion is unrelieved, much of the new crop will remain stored on farms. Terminal elevators already are filled with wheat in many places and despite frantic efforts to relieve congestion, a serious condition still exists, according to the dealers.

The threshing season will start in southern Minnesota and South Dakota within the next two or three weeks. In North Dakota and the Red River valley, threshing will start about the middle of August, according to reports here.

Trading in December wheat is expected to develop on a large scale soon, but grain men predicted the market will not find itself for some time.

## Formal Opening of Capital Building

Winnipeg, Man., July 15—Manitoba's new capital building was formally opened today—the fiftieth anniversary of Manitoba's recognition as a province.

The structure cost about \$6,200,000 and when completed will be one of the finest on the continent. Bronze statuary on the dome was made in France. Sir John Simon, Liverpool architect, received \$150,000 for his work on the building.

## CAN TAKE PRIDE IN HOUSE

Domicile Expresses Personality That Can Be Pleasing, or the Reverse, as May Be.

But the best of a house is that it has an outside personality as well as an inside one. Nobody, not even himself, could admire a man's flat from the street; nobody could look up and say, "What very delightful people must live behind those third-floor windows." Here it is different. Any of you may find himself some day in our quiet street, and stop a moment to look at our house; at the blue door with its jolly knocker, at the little trees in their blue tubs standing within a ring of blue posts linked by chains, at the bright-colored curtains. You may like it, but we shall be watching you from one of the windows, and telling each other that you do. In any case, we have the pleasure of looking at ourselves, and feeling that we are contributing something to London, whether for better or for worse. We are part of a street now, and can take pride in that street. Before, we were only part of a big unmanageable building.—From "Not That It Matters," by A. A. Milne.

## Hawthorne.

Dumas called himself a dramatic poet; Hawthorne claimed to be writer of fiction. Both were about equally near the truth. Hawthorne invented so much fiction as should serve to illustrate his doctrines; and he invented it for that purpose. It had a secondary rank in his thoughts and in his affections, though it is probable that he was not aware of the fact. He was, indeed, not a dramatic poet, not a novelist, not a historian; he was a moralist, a philosophic moralist, calling upon history, fiction, and poetry to illuminate and enforce his tenets. As an ingenious moral philosopher and essayist, rendering his teachings impressive by the use of fables more or less elaborate, he may well take rank with the most elegant and accomplished writers of his class.—J. C. Heywood.

## Could Be Better.

A writer says it was probably a bagpipe instead of a fiddle that Nero played while Rome was burning, taking this position presumably on the fact that nearly all historians agree the music was rotten. It is for this reason we have stuck to the fiddle theory. Nero was a punk musician, and wails of the bagpipe are sweetness itself compared to the sound of the violin in the hands of a well-meaning amateur.

## DECISION HITS LABOR UNION

Amalgamated Clothing Workers of America Mulcted for Heavy Damages.

## DENOUNCED AS "MONOPOLY"

Strong Language Used by Justice Rodenbeck in New York Supreme Court—Organization Decides to Take an Appeal.

Justice Adolph Rodenbeck, in the New York supreme court, handed down a decision in the case of the Michaels-Stern Clothing company against the Amalgamated Clothing Workers of America for a permanent injunction and \$100,000 damages. The decision upholds the contention of the company throughout, granting it a permanent injunction, closely following the temporary one.

The attitude taken by Justice Rodenbeck throughout his decision, one of the most momentous from the point of view of the industrial world which has been handed down in the United States in recent years, is that no labor union has the right to make itself into a labor monopoly and use force and intimidation to effect this end.

"The plaintiffs were required to win their way in the world of business by hard and honest competition and by the character and quality of their goods," the decision says, "but the Amalgamated Clothing Workers, instead of endeavoring to secure recognition by an example of enlightened and reasonable administration in other factories, chose to force their way into plaintiff's factory by secrecy and by a strike backed by its powerful influence and supported by acts that the law condemns."

Regarding the attitude taken by the Amalgamated toward the United Garment Workers, the American Federation of Labor union, which had been recognized by the Michaels-Stern company, the decision characterized it as "selfish."

Justice Rodenbeck holds it to be purely and simply one of monopolization, which, in the language of the decision, would do no good to either party, since "it would defeat its own purpose so far as wages were concerned by raising prices as fast as the cost of production was increased," assuming that the clothing manufacturers were as closely affiliated as the Amalgamated seeks to be.

The Amalgamated Clothing Workers of America announced, following a conference of its officials and attorneys, that an appeal would be taken from the decision of Justice Rodenbeck.

## GENERAL LABOR NEWS

All the best blotting paper is made from soft cotton rags.

Fine copper produced from British mines in 1918 amounted to 1,213 tons.

All mechanics in the railway shops of Tampico, Mex., struck, demanding higher wages.

If Germany works, Belgium is working too. In spite of the eight-hour day, the Belgian coal output in March was 105 per cent over that of March, 1913.

The strike of wireless operators, which threatened to bring shipping activities to a standstill, has been called off. This action was taken following meetings of the Association of Wireless Telegraphists at London, Liverpool and other ports. The wireless leaders declare they have secured guarantees of fair treatment.

The Gary, Ind., Street Railway company granted an increase of 30 per cent in its employees' wages, and has asked the public service commission for permission to increase its fares from 5 cents to 8 cents. The wage increase totals \$100,000 a year. The men asked for an eight-hour day in addition to the wage increase, but this was left for arbitration.

C. E. Mueser, general chairman of the Brotherhood of Railroad Trainmen, in a statement submitted to the schedule held by the brotherhood on the Pennsylvania lines, declared that "the strike called will not be sanctioned until it is determined that we cannot hope to negotiate a favorable settlement with existing agencies set up to adjust matters of dispute between ourselves and the company."

The Clothing Manufacturers' association refused the demands of the branch of the Amalgamated Clothing Workers of America for a minimum scale of wages on a week of 44 hours. Instead of the present piece work system. The manufacturers said the demands would mean an average increase of 17.4 per cent for the 6,000 clothing workers here. No increase can be granted, and the piece system must be continued to keep up production, the association announced.

To aid in overcoming the farm labor shortage in the South, a development department has been established at Atlanta, Ga., by the Southern Bell Telephone & Telegraph company, and a registration bureau opened.

At Woonsocket, R. I., 850 American Wringer company employees, on strike for three weeks, voted unanimously to return to work under a compromise offer giving them a wage advance of 3 cents an hour, the bonus plan instituted by the company also to be in operation. The strike was for a 15 per cent increase.

## AMUSEMENTS

## "Uncle Tom's Cabin"

Harriet Ward Beecher Stowe's famous story of slavery before the Civil War is well represented in the dramatization of this well known story "Uncle Tom's Cabin" and as produced by Terry's excellent company. The presentation is an interesting one, and is given in its entirety just as depicted by the author. The company that Terry carries this season is equal to those that are seen in the larger city theatres, he having spared no expense to make the company one of the strongest ensembles. The scenic and electrical effects complete. In fact the show as put on by the Terry company is spoken of by the press and public as a splendid presentation of the national drama.

The musical part of the show this year is to be considered: three bands and orchestras are carried that are the talk in every city visited, being composed of a high class array of solo musicians. The show is advertised to give one performance Friday Evening, July 16, at Brainerd, the tents being located near the gas plant.

## Opium Production.

Opium is the product of the poppy which only grows to perfection in a tropical or sub-tropical climate. The part of the British empire that produces the most opium is India, and there production is restricted. The poppy may now be grown by individuals or private companies only in the united provinces, Agra and Oudh, and in the central Indian native states. Except in these states the manufacture of opium is a government monopoly.

## Nearly That Valuable Here.

## SULPHUR CLEARS UP ROUGH OR RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It never fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.

## CITY FINANCES

## STREET PAVING

First National Bank of Brainerd, Brainerd State Bank and Sinking Fund Commissioners

## SUBSCRIBE FOR THE BONDS

H. E. Kundert Succeeds F. H. Simpson as Member City Board of Health—Council Met

God helps them that helps themselves. This was exemplified in the case of Brainerd.

Bids on the city's \$23,400 permanent revolving fund bonds at 5 per cent, and \$54,000 repaving certificates at 6 per cent, as made by outside bond houses, were unsatisfactory and the bids were rejected.

Brainerd then got busy itself and the whole bond and certificate issue has been floated by the First National bank of Brainerd and the Brainerd State bank and the sinking fund commissioners of the city.

The banks showed themselves as interested in the welfare of the community and willing to assist in financing affairs of the city and public improvements.

The council accepted the bid of the First National bank of Brainerd for \$4,500, permanent improvement revolving fund bonds, \$42,500 repaving certificates, that of the Brainerd State bank for \$10,500 bonds and \$11,500 certificates and that of the sinking fund commissioners of \$13,400 bonds, all at par and accrued interest.

## Board of Health

Mayor F. E. Little appointed H. E. Kundert, cashier of the Brainerd State bank, as a member of the city board of health, to succeed F. H. Simpson, resigned. The appointment of the mayor was confirmed by the city council.

## Street Lights

C. A. Carlson, of 19th and Quince streets, wanted a street light on his corner. On motion carried, the electric light committee is to confer with the water and light board regarding lights in general.

## Cement Sidewalks

On motion of Alderman Michael, seconded by Alderman Huggah, carried, cement sidewalks were ordered in at:

Block 196, north side of lots 17 and 18 and the east side of lots 3 and 4. This block is bounded by Bluff Grove, Sixth and Seventh streets on the north side.

Blk. 124, near by, north 75 feet of lot 7.

## Oak Street Crossing

On motion of Alderman A. G. Anderson seconded by Alderman Andrew Anderson, carried, the city engineer is to communicate with the county engineer in regard to action by the railway on the Oak street crossing plans.

## Other Matters

Bills and payrolls were allowed also progress estimates of Klondike and Kingwood streets.

The purchase of a street grader was referred to the finance committee, purchasing committee and street committee to report on at the next meeting.

## TRAFFIC LAWS

Mal Clark, mentions the Rules Governing in Various Cities, Means to Expedite Travel

Mal Clark, recently back from a 1600 mile auto trip to Buffalo, mentioned some of the traffic rules governing in large cities.

There is a splendid drive from Milwaukee to Chicago. In Chicago, Michigan Avenue traffic must keep to the right and make only "right" turns. The flow of cars, six abreast, spreads along at 20 miles an hour and was better the driver who made a "left" turn. In returning to their hotel they managed to get, on the left side of the street and it took four or more blocks of maneuvering to get to the right side.

In Buffalo traffic follows certain sides of streets and you cannot change over.

## ELKS OF STATE TO

## MEET IN VIRGINIA

AUGUST 19-20-21

St. Paul, July 15.—An invitation from the executive committee of the Elks' lodge at Virginia, Minn., received yesterday by James J. Lund, secretary of the St. Paul lodge, announces that the Elks' state convention will be held at Virginia August 19, 20 and 21.

Delay in the construction of the new hotel at St. Cloud due to labor troubles caused the state organization board to change the convention point from St. Cloud to Virginia.

IT PAYS TO ADVERTISE—TRY IT

## FIFTH NUMBER

## DRAWN IS WINNER

American Legion Ford Committee Announces Rules for the Award of Ford Roadster

## SATURDAY EVENING, JULY 17TH

Only a Few Numbers Remain Unsold. Range People Also Interested in the Outcome

The American Legion Ford committee has placed in the windows of the Woodhead Motor Co. a large churn in which all duplicate numbers of chances sold will be put, the churn turned until every one is satisfied that the numbers are well distributed within and then the drawing will be made.

The fifth number drawn from the churn will be the lucky number and the number will be drawn from the churn promptly at eight o'clock.

Only a few numbers remain to be sold and the committee believes that long before the hour of the drawing the chances will be entirely sold.

Anyone desiring a number or additional numbers should not delay getting them as they may be disappointed by waiting. Several Brainerdites have taken as many as fifty chances on the car and others have signified their intention of taking many additional numbers before Saturday. Long distances calls from the range today asked for more numbers but the committee was forced to refuse the request as the balance of the numbers are wanted by Brainerd people. Remember the fifth number wins.

## CHILD WELFARE

## WORK ENDORSED

Brainerd Chamber of Commerce at Regular Meeting Wednesday Evening Backs Up Committee

## STATE FEDERATION OF LABOR

Chamber to Enter the Lists and Be Candidate for Convention City in 1921

The regular semi-monthly meeting of the Chamber of Commerce was held Wednesday night with, for this time of year, a good attendance.

The secretary presented the report of the public affairs committee which met in the Chamber Monday night and voted to request the chamber to endorse the work of the Child Welfare board, a resume of which was presented by Mrs. W. H. Gemmell at that meeting. Also to appoint a committee to wait upon the county commissioners at their next meeting asking them to take steps as are necessary for the appointment of an executive agent to have the immediate supervision of the mental and moral delinquents throughout this community.

The chamber after hearing the report concurred in the report of the Public Welfare committee and appointed it the committee to appear before the commissioners next week to present the chamber's request.

The matter of inviting the 1921 convention of Federated Labor, which is now in session in Rochester to make Brainerd its meeting place was brought before the meeting by President Theodore E. Brueneard. Messrs. Cohan, Russell and Thibet spoke favorably on the subject and R. D. Stitzel moved that the chamber endorse the project and place the matter in the hands of the committee on convention for immediate action.

It was decided to instruct the House and Social Committee to arrange for a festive evening next week to enable the members to meet the new secretary, Francis B. Randall.

## MARKET REPORT

## RIDLEY HAS

## A GOOD IDEA

Ironton Manager of the Ironton Baseball Team Does Not Play When Funds are Short

## WILL STAGE CARNIVAL SOON

"Our Aim in Life", Said George, "Is to Get a Team Together That Will Lick Crosby"

George Ridley was in town yesterday. He returned from Ironton and was accompanied by Johnny Brand, now playing short for Little Falls, and Sherry Brand. All were on their way to Little Falls to see the Villards play Little Falls.

"Tell you how I am running my team", said Ridley. "When we run out of money we quit before we get in the hole. Just now we are recuperating and gathering a team which will be a crackerjack. Our whole aim in life is to get a team lined up that will lick Crosby."

"We have a carnival headed for Ironton for the benefit of the baseball team and expect to make \$1,000. When we get under way again we want a date with Brainerd and we promise you a game which will be contested from start to finish", said Ridley.

In speaking of high salaries in independent baseball and the "padding" of teams, Mr. Ridley agreed with the Dispatch that the only solution of the era of high expenses was a baseball league modeled on lines of the Central Minnesota Baseball League.

"With such a league again in existence, a manager would know where he was at in the way of salaries and schedules", said Mr. Ridley. "We are with Brainerd for a league next year."

## CLIFFORD JACKSON HERE

Paper Mill Employee Secured a Knock-out in Bout at Manistique, Mich., on July 5th

Clifford Jackson, a paper mill employee from Manistique, Mich., is visiting his parents at 1024 Whiteley Avenue Northeast and enjoying a vacation for the first time in years.

Young Jackson made quite a showing at Manistique when he boxed on the occasion of the first tournament of the new athletic association on July 5th. The main event was well filled and the enclosed area about the ring was quite well filled. Jackson made such a good showing in the bout that he expects to make fighting his business.

The Manistique Pioneer-Tribune made this mention, in part, of the tournament:

The bouts consisted of a curtain raiser between Young Farmer and Barney Barrages of Trout Lake, a preliminary between Buck Jackson of the city and Allan Gilless of Gladstone. The main bout of the evening was between William Walpin of Minnesota and "Sailor" Bill Perkins of Rhinelander.

In the second round of the first bout Young Farmer received a smash in the stomach, near what used to be called the solar plexus and was unable to go on with the fight. He had gone in the ring without a day's training and evidence was wanting that he was fully as skilled as Barrages.

In the second bout Buck Jackson, who is employed at the paper mill and who is not only very young but very new in the fighting game went up against the Gladstone boy with every likelihood of getting a trimming in the estimation of local fans. Jackson surprised them however, by putting his man completely out in the first round. After a husky punch on his opponent's nose, he landed a terrific right in the same neighborhood and was almost knocked through the ropes and off the stand. Jackson looks to be a coming man and is so much in earnest about the game and so good natured about the whole thing that he is becoming quite popular.

The main bout of the evening was between the light heavyweights who went ten rounds in a no decision go. Perkins was the better man and was much the fresher at the window. Walpin had a terrific swelter but was unable to get it in any time during the bout. At finishing Perkins was much his superior and Walpin's body was badly bruised in the fifth and sixth rounds. Neither man took any severe punishment but the bout was full of action and glimmer from start to finish.

In discussing the boxing program, Perry Schadd, the wrestler from Flint, was quite enthusiastic. He stated that in a ten round go between experienced fighters like Perkins and Walpin the audience could not necessarily expect a "dramatic" match. These fights are won or lost by endurance as well as by technique and a chance of victory will be

## FOUL DRY AT WORK

## FULL BLAST AGAIN

Differences Between Foundry Laborers and Management Regarding Wage Scale Settled

## MEN RETURN ON WEDNESDAY

Molders Able to Resume Work on Thursday, Laborers Secured a Raise in Wages

On Tuesday the committee of foundry laborers and the management of the Parker & Topping Co. came to an agreement regarding the wage scale and the short walk out terminated amicably and the men returned to work on Wednesday.

Thursday morning the molders were able to resume their labors and accordingly the foundry today is working full blast.

readily be jeopardized by too much open work.

The new athletic association will arrange a number of good bouts in the near future and the revival of boxing and wrestling may make the sport very popular in Manistique.

## Spending The Corset Dollar

EVERY woman realizes that this is the day of the "fifty-cent dollar." If you spend your corset dollars for a garment that does not wear well, that does not give you satisfaction, it is an extravagant corset at any price. You can spend your corset money so every dollar will have its full purchasing power of 100 cents if you will be very particular about the corset you buy.

"GETTING your money's worth" in these days of increasing costs and the diminishing value of dollars, as it applies to corsets, is not so much in the price you pay as in the garment you buy. The corset you discard after a few uncomfortable wearings or the corset you continue to wear at the expense of your appearance, health and peace of mind, is the corset you cannot afford. We assure you that every

## GOSSARD CORSETS

is worth every cent you pay for it—worth it in style; worth it in comfort; worth it in wearing service.

There is not a corsetiere in our corset department but will take a personal interest in helping you spend your corset dollars wisely.

H. F. Michael Co.

## MOUNTAIN IN SEA

Summit Known as Laura Ethel Is the Highest.

Twenty Thousand Feet Above the Lowest Level of the Atlantic Basin—Approximate Location of "Davy Jones' Locker."

At the captain's table on an Atlantic liner a young woman idly inquired how far the ship was from the nearest land. Several passengers would have said offhand, "About eight hundred miles." But the captain turned the question over to a quiet gentleman who looked at his watch and at a chart and amazed his hearers by answering, "Just about seventy yards."

"The land I speak of is just thirty-six fathoms beneath this ship," continued the expert oceanographer. "It is the summit of the Laura Ethel mountain, which is 29,000 feet above the lowest level of the Atlantic basin. If it were some two hundred feet higher, or the sea were two hundred feet lower, you would call it an island."

In effect, the Atlantic is a huge continent boasting a superficial area of 25,000,000 square miles. It is 9,000 miles long and 2,700 miles broad. The depth of the water that covers it is by no means so considerable as people used to imagine. Oceanography as a science may be said to date only from about 1850, but—thanks chiefly to the labors of the cable-laying and cable-repairing ships—our knowledge of the configuration of the bed of the ocean grows greater every year.

The Laura Ethel mountain, discovered in 1878, is the uppermost peak of one of the most celebrated of the submarine elevations in the Atlantic. Mount Chamber, at the eastward of it, was revealed to oceanographers in 1850. Sainthill, which is westward of both, has the honor to be the first mountain discovered in the Atlantic. It became known in 1832.

Prior to the laying of the first Atlantic cable Lieutenant Maury, United States navy, made it known that a wide plateau exists beneath the ocean, running from Ireland to Newfoundland. It seemed so admirably suited to the purpose of cable laying that he modestly called it Telegraphic plateau, but in most charts it bears the discoverer's name.

The location of "Davy Jones' Locker" might be said to have been established with the discovery of Sainthill. It has been estimated that at the base of this eminence the relics of not fewer than seven thousand wrecks lie scattered. Or one might ascribe that gruesome distinction to the Faraday hills, discovered in 1883 and lying between Mount Chamber and Laura Ethel mountain. These hills are noted among oceanographers for the amount of wreckage of which they are the monument.

There are cavernous depths, of course, in the Atlantic, as well as majestic heights. Four miles and a half may be taken to be the greatest. The average is probably about two miles. Heights and depths alike are more or less hidden land, which may some day be exposed by the mighty workings of nature.

Meantime comparatively few changes occur. Beneath the ocean there are no frosts, no lightnings, no glaciers, no meteorological agents at work. If it were not for the eddies and the destruction and accumulation of animal life, these Atlantic hills and vales might rest as immutable as the peaks and craters of the moon, where there is no atmosphere to cause decay.

### How German Potash Is Mined.

Potash in Germany occurs in the form of a rock salt and runs in seams of 30 feet or more in thickness. As mined, it has about the same consistency as the common rock salt of commerce and its grinding is easy. It is ground to about the fineness of a coarse sand; in this form it is used for domestic agriculture and at the present time it is also mostly exported in this form. The depths at which the true potash deposits are situated render it necessary to sink shafts leading to levels of as much as 5,000 feet below the surface. Horizontal cuttings extend up to two miles in length.

The miners themselves are, unlike coal miners, entirely free from the danger of fire damp. Occasionally danger arises from hydrogen, the blue flames of which may sometimes be seen flickering on the walls after a blasting operation in a newly opened mine. Sulphuretted hydrogen has caused the death of a few miners and carbonic acid gas renders suffocation possible.

### Heavier Trucks Coming.

At a recent meeting of the Cleveland and Detroit sections of the Society of Automobile Engineers, P. D. Litchfield, a factory manager, expressed the belief that the heavy tonnage truck of the future would be some form of the multiple-wheel vehicle, just as the multiple-wheel freight car succeeded the single-truck type in the transportation of heavy loads. Experiments have been made with the six-wheeled truck of this description, and the results are said to be very gratifying, easier on both the tires and roads.

### Where It Went.

Irate Father—What, more money? See here, young man, what did you do with that last five hundred I gave you? (Chorus girls, cabarets, joy rides, I suppose.)

Son—No, father; no, I've been playing bridge with mother.—Boston Transcript.

## CANDY SUPPLANTS HIGHBALLS IN POOL ROOMS IN PROHIBITION ERA

who had the temerity to eat candy in a pool room once would have been thought a molasseshead. Since prohibition, the pool rooms have built up an immense candy business. We have been shipping candy in carload lots to many cities to supply this new trade.

CHICAGO. — Prohibition has spread the candy habit. No longer is the dainty miss with her traditional passion for dainty confections the nation's largest candy consumer. She has a rival in the young man who has substituted angos and chocolate creams for beer and highballs.

"The billiard parlors and cigar stores," said Theodore W. Bunte, Chicago candy manufacturer, "are becoming formidable competitors of confectionery stores in the sale of candies. Instead of ordering liquor between games, pool and billiard players eat candy. A man

"Women in the past have been the mainstay of the candy trade. But it is a matter of trade statistics that men have become the nation's greatest candy eaters since prohibition went into effect. The candy habit has superseded the whiskey habit."

"The public has been wondering why candy manufacturers need so much sugar. Prohibition is the answer. Prohibition is building up a greater demand for candies than the country ever knew before and it is the newly acquired appetite for sweets among men that is responsible for the market expansion."

### Harnessing the Rivers.

According to a group of British engineers, electric power can be produced by harnessing the tides of two rivers in Scotland at two-thirds the cost of that generated by steam.

### Easy to Change Name in England.

In England no legal formalities are necessary for a change of name. A person may call himself by any name he pleases, and may change his name as often as he likes, provided such changes are not made from fraudulent or improper motives.

### Bruises in Furniture.

Here is a method which has been of great use in removing bruises from furniture. Wet the part with warm water; double a piece of brown paper five or six times, then soak it in warm water and lay it on the dent. Apply a warm (not hot) flatiron until the moisture has evaporated. If the bruises are not gone, repeat the process. You will find this very good, and if the surface of the furniture is not broken the dent will disappear and leave no trace.

DISPATCH WANT ADS PAY

## SAFETY WEEK BIG SUCCESS

People of Twenty Cities and Towns in Lehigh Valley, Pa., Make Movement a "Go."

At one o'clock Monday afternoon, May 10, a shrill siren blast resounded throughout the Lehigh valley of Pennsylvania and at that moment there was started the most comprehensive and most successful "No-Accident Week" thus far conducted by any community in America.

More than half a million people in 20 cities and towns answered the call of that siren. During the next seven days 170 safety talks were made; more than a million pieces of safety literature were distributed; thousands of safety essays, slogans and posters were prepared by the school children of those 20 cities; hundreds of plant safety meetings were held; safety sermons were preached in the churches; a hundred thousand letters on safety were written by the children of the district and as many safety pledges were signed by their parents; resuscitation demonstrations, fire drills and other first-aid contests were carried on in practically every community in the district; and at every turn throughout the week the half million people were confronted with safety signs, safety movies, safety parades.

What were the results? Here are a few: A reduction of 92 per cent in mining accidents. A reduction of 80 per cent in electric railway accidents. A reduction of 36 per cent in all public accidents. A reduction of more than 90 per cent in accidents at the largest industrial plants in the district.

## PROFITEERS ALSO TO BLAME

United States Chamber of Commerce Sees Only One Side of Controversy Over Strikes.

The United States chamber of commerce has asked for a referendum vote by its more than 1,300 subsidiary commercial and trade organizations on the recommendation that "strikes by employees of all public service corporations, performing public service essential to the lives, health, well-being and comfort of the people should be explicitly prohibited by law."

The national chamber, with pious uncton and eyes upturned, then goes on to say, "It is the obligation of the state to protect the lives, health, security, rights and property of all its people." Which surely is the truth. But would the national chamber approve and recommend another proposition of similar import; namely, that net profits in excess of 20 per cent should be explicitly prohibited by law? How about protecting the people from profiteers who cause strikes? A state obligated to protect the lives,

health, security, rights and property of all its people, falls in that obligation when it permits giant corporations to tax as well as confiscate the substance of the people by exacting from 100 to 2,000 per cent net profits from them, or equally large stock dividends.—Capper's Weekly.

## GRANGE REFUSES HELP TO LABOR IN POLITICS

"The national Grange, the largest and most active organization of producing farmers in the world, has definitely rejected a proposition to unite, or even confer with labor leaders in any way, shape or manner, looking to political co-operation," said an announcement by Prof. T. C. Atkeson, Washington representative of the Grange. The organization does not approve of political agreements or co-operating with any class, group or party, Mr. Atkeson asserts, and it will not participate in partisan politics.

### To Remain Labor Party.

The American labor party, it is announced from headquarters in New York, will remain a distinct labor party movement. "We are rooted in the trade-union movement, which is growing in might throughout the world," said William Kohn, Greater New York chairman, "and will be, perhaps, the greatest economic and political influence of the future. We shall hold fast to our mission to serve as the political instrument of the manual workers and the awakened brain workers."

### Labor Strong in Chile.

Organized labor participated to an unprecedented extent in the presidential campaign in Chile, which was marked by bitterness on both sides. Senator Arturo Alessandri, candidate of the liberal alliance, who has the support of the radical party, has been in public life for many years. This is the first political venture of his opponent, Luis Barros Borgoño, candidate of the union nationalists, with whom the conservatives and majority liberals are allied.

### Compensation Act Valid.

The supreme court of Tennessee declared the Tennessee workmen's compensation act constitutional and valid except one provision.

A provision authorizing the county judge to include a fee for his services in a case brought under the statute was held to be unconstitutional, but this the court held should be merely eliminated and the remainder of the act upheld.

### Castle Rock in Kansas.

One of the most interesting works of nature in Kansas from a geological standpoint is known as "Castle Rock," a natural formation located in Gove county, in the valley of the Hackberry, about ten miles from its mouth. This castellated mass is composed of a coping of limestone and the shaft of chalk and compact shale. Its unique formation was caused by the shales wearing away, the strongly cemented stone serving as a protection to the upper surface. In this way mountainous appearing masses are frequently produced, especially where streams cut their way through the hard stone into the softer materials below. Similar formations are met with in Ellis county which show isolated columns which rise from 20 to 70 feet in height.—Blackmar's History of Kansas.

### Putting Reptiles to Sleep.

Monotonous sensory stimulation, one southern dealer in alligators has found, will quickly render the smaller reptiles unconscious. To demonstrate his uncanny control of his reptilian stock in trade, he places one of the smaller alligators upon its back. Kneeling besides it, he holds the wriggling body with one hand, while he gently strokes the underside of the jaw. Back and forth goes the hand until the squirming ceases and the limbs relax. Some say that the dealer temporarily suppresses the functions of the crocodilian cerebrum others, skeptical, maintain that he simply lulls the alligators to sleep.—Popular Mechanics Magazine.

### The Scrap.

Representative Frear interrupted the reading of a report to say:

"Official language is always rather ludicrous. Once two scrubwomen in government employ had an argument, as a result of which the weaker vessel was laid up for some days."

"An official inquiry was duly held, and the victorious scrubwoman received a letter which said, among other things:

"Is it true, as reported, that said Mrs. Hagan received certain ocular and nasal contusions at your hands?"

"The scrubwoman in official language wrote back:

"I regret to say that the answer is in the infirmary."

### 'At a Boy!

At the spectacle races a tire company gave away toy balloons as advertisements. A lad about four years old came up to the man on the job and said: "Please may I have two balloons?"

The man replied: "Sorry, my little lad, but only one balloon to a boy. Have you any brothers at home?"

After a minute of deep thinking the lad gave this answer: "No, I have no brothers, but I have a sister who has a brother."—Indianapolis News.

### Law and the Profits.

"How did you come to be a profiteer?"

"It was all because of the law of supply and demand," whispered the culprit. "I was trying to get a sufficient supply of money to meet the demand for it."

# IT PAYS TO READ ADVERTISEMENTS

Advertisements are news.

Good news—timely news—helpful news.

News of the great world of business.

News of the best places to buy.

Heralds of the world's improvements—builders of factories—makers of homes.

News of the latest styles.

News of comforts unknown when father was a boy.

News that is handy to your eye.

News that you can't afford to hurry by.

News that will save you money.

Don't miss the advertisements.
